

# Redon / Blain

## La Vélo dyssée, the Atlantic Cycling Route

**Départ**  
Redon

**Arrivée**  
Blain

**Durée**  
3 h 00 min

**Distance**  
44,85 Km

**Niveau**  
I begin / Family

**Thématique**  
By the water, In family

Staying close to the Brière and the confluence of the Isac and the Vilaine, this stage of La Vélo dyssée follows the river at water level. Keep your ears and eyes open for the host of different animal species which populate the surrounding marshes. A magnificent section which alternately twists and turns, with hedgerows, hillsides and copses to each side - sometimes even little pine forests - before reaching Barel Lock. Following cycle paths right to the heart of Blain.

### Itinerary

This section has designated lanes and is liable to flooding between St-Clair and the Thénôt, so it's not recommended during off-peak seasons or after heavy rain. You will quickly find your wheels and mudguards being clogged up! Take care when crossing the D 773 at Pont Miny and when crossing the RD 2 to Guenrouët and the RN 171 to Blain. There are several very pleasant picnic areas where you can take a break during this stage.

- 

The map shows the Redon area with the Loire river flowing through it. Key locations include Redon, Le Châtelet, La Digue, and Saint-Nicolas-de-Redon. The map features various landmarks such as the Collège Beaumont, Lycée Marcel Callo, and the Collège Bellevue. Roads are marked with numbers like D 65, D 67, D 164, D 775, and D 775B. A highlighted orange route is shown, starting from the Loire river near La Digue and heading towards the center of Redon. The map also shows the Loire river flowing through the area, with the Loire riverbank visible on the left and right sides.
